PROFESSIONAL SUMMARY

Front-end Developer with experience in HTML5, CSS3, and JavaScript, specializing in ReactJS, NextJS. Skilled in creating pixel-perfect, responsive websites using popular libraries like Bootstrap and Material UI, Ant Design. Committed to staying up-to-date with web development trends and working collaboratively to deliver quality results.

PERSONAL PROJECTS

Nike Ecommerce Web App (Clone)

- Built with React, showcasing modern web development techniques for responsiveness and interactivity.
- Features include a search bar, a fixed navbar for easy navigation, and product recommendations from popular brands.
- Detailed product listings with images, descriptions, reviews, and "Add to Cart" functionality.
- Users can adjust quantities of selected items for purchase.
- Aims to make shopping enjoyable, seamless, and personalized.

Blogging App

- Created Personal Blogging App, a platform for sharing ideas and stories with a user-friendly interface.
- Features include easy navigation, seamless signup/login, and simple blog post creation.
- Combines passion for coding with the desire to empower users to share their thoughts with the world.

E-cart Ecommerce Web App

- Designed sleek interface for E-Cart Shop, enhancing online shopping.
- Features seamless navigation with navbar, visually engaging product exploration with carousel.
- Optimized product listings with detailed info and "Add to Cart" functionality.
- Streamlined cart management with clear pricing and quantity adjustment.
- Simplified checkout process for a seamless buying experience.

Budgeting App

- Developed Budgeting App, a user-friendly solution for effortless finance management.
- Features include budget setup with summary details, seamless expense logging, and budget tracking.
- Empowers users to take control of finances with ease and precision, promoting financial freedom.
